

TeleGPS Outline and Hole Pattern

This image, when printed, provides a precise template for the mounting holes in TeleGPS. TeleGPS has overall dimensions of 1.000 x 1.500 inches, and the mounting holes are 0.125 inches from each board edge. That means the mounting holes are in a rectangle measuring 0.750 x 1.250 inches apart, sized for use with 4-40 or M3 screws.
